

Magna invites you to Black Box Solution Day „Broadcast KVM and Video Wall Technology from Black Box“

January 14, 2020 - Hotel Ciputra Jakarta

ABOUT THE SEMINAR:

The broadcast industry is evolving, making a rapid transition to cloud-based workflows and automating operations for program transmission, master control, news production, and live production. KVM and video wall technologies play a pivotal role in this transition allowing managers, editors, operators, and engineers to manage and rapidly reconfigure infrastructure, allowing ease of setup and configuration.

This half-day seminar is a great opportunity to receive the latest solutions updates, engage with peers, and hear from Black Box channel and product experts. During the seminar, you will get an overview of emerging trends, major challenges and hands-on sessions on high-performance KVM and future-proof video wall solutions.
